Sum of Discounts by Country and Product

Product ● Amarilla ● Carretera ● Montana ● Paseo ● Velo ● VTT

CT – Clustered Bar Chart

Insights:

- **VTT** is the top-discounted product across all countries, reaching its peak in **Mexico (0.80M)** — significantly higher than all other products.
- **Velo** consistently receives the **second-highest discounts**, especially in **Canada (0.33M)** and the **United States (0.52M)**.
- **Amarilla** and **Carretera** record the **lowest discount values** in every country, showing minimal promotional activity.
- Among all countries, **Mexico** has the **highest overall discount sum**, while **Germany** records the **lowest**, indicating possible market prioritization differences.
- **France** shows a more **balanced discount distribution** across products, unlike other countries that have clear top performers.

Steps to reproduce:

1. Select **Clustered Bar Chart** from the *Build Visuals* pane.
2. Pass **Country** to the *Y-axis*, **Sum of Discounts** to the *X-axis*, and **Product** to the *Legend*.

3. Go to **Format your visual** → **X-axis**.

Options available are:

- Change font style
- Change font size
- Change font colour
- Turn value button ON
- Turn on Title, and change its font size, style, and colour

4. In **Format your visual**, go to **Y-axis**.

Options available are:

- Range
- Value
- Title
- Turn on Value radio button
- Change font colour, style, size
- Turn on Title radio button, and change font colour, style, and size

5. Go to **Gridlines** section.

- Turn OFF the horizontal gridlines radio button.

6. Go to **Bars (Columns)**.

- Select each Product category and assign colours (e.g., Amarilla – Light Blue, Carretera – Dark Blue, Montana – Orange, Paseo – Pink, Velo – Purple, VTT – Violet).

7. Turn ON the **Border** radio button.

8. Turn ON **Data Labels** radio button.

- Under options, select **Position: Inside End** or **Center**.

9. Turn ON **Value** radio button.

- Change font colour, style, and size for clarity.

10. In **Format Visual** → **General**, turn ON the **Title** radio button.

- Edit chart title to “Sum of Discounts by Country and Product”
- Change font style, colour, size, and alignment, then save it.
