

CT – Donut Chart :

Insights:

- **Paseo** leads in gross sales with **35.61M (27.84%)** of the total sales.
- **VTT** comes second with **21.97M (17.17%)** of the total sales.
- **Amarilla** follows closely with **19.83M (15.5%)**.
- **Montana** generated **19.04M (14.88%)** in sales.
- **Carretera** contributed **16.55M (12.94%)** in sales.
- **Velo** generated **14.94M (11.68%)** in sales, the smallest share.

Steps to Reproduce :

1. Select a Donut Chart
 - From the Build Visuals pane, choose the Donut Chart visualization.
2. Assign Data Fields
 - Drag Product to the Legend field.
 - Drag Sum of Gross Sales to the Values field.
3. Format the Chart
 - Donut Radius: Adjust for visual balance and clarity of data labels.
 - Data Labels: Enable and display the percentage of gross sales for each product.
 - Legend: Ensure the legend is clear and legible for product names.
4. Customize Colors
 - Assign distinct colors for each product for clear differentiation (e.g., blue for Paseo, purple for VTT, etc.).
5. Conditional Formatting
 - Enable Conditional Formatting for color gradients based on the sum of gross sales. Use darker shades for higher sales values and lighter shades for lower ones.

6. Title and Formatting

- Turn on the chart title and format the text style, size, and alignment for consistency.

7. Finalize and Save

- Review the visual for clarity and accuracy.
- Save your final chart.
